DETAILED ACTION

Claims 1-11 are pending in the application.

Election/Restrictions

Newly submitted claim 11 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claim 11 is directed to a product prepared by the process of claim 1 (i.e., process of making and product made). The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process.

Since applicant has received an action on the merits for the originally presented invention, this

Art Unit: 1626

invention has been constructively elected by original presentation for prosecution on the merits.

Accordingly, claim 11 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jonathan Myers on April 4, 2006. Authorization was given to cancel the nonelected subject matter of claim 11, without prejudice to the filing of a divisional application on same.

The application has been amended as follows:
Cancel **claim 11**.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance. Upon reconsideration, and especially in light of the Declaration by Laszlo Czibula filed January 30, 2006 under 37 CFR 1.132, the instant process is unobvious over the art of record because of the silyl ether derivative starting material of formula (II). Therefore, claims 1-10 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura L. Stockton whose telephone number is (571) 272-0710. The examiner can normally be reached
